

R-SERIES

Environmentally Friendly

ESI Ergonomic Solutions

The R-Series platforms are composed of a minimum of 90% post-consumer materials, making them 100% recyclable. They are free of formaldehydes and carcinogens and emit no VOCs (Volatile Organic Compounds).

The leatherette-covered gel palm rests are equally environmentally friendly. Both the gel core and the leatherette material are free of formaldehydes and carcinogens. The leatherette material can be cleaned and sanitized, as well as removed, for thorough cleaning of the platform.

Go Green!

Each of our P-Series platforms are available in our environmentally friendly R-Series material. The R-Series platforms share the same specs and dimensions as their P-Series counterparts. Use the chart below to locate the corresponding P-Series platform for specs and features, as well as R-Series pricing.

	Part Number	Corresponding P-Series Platform Specs	List Price:
A	PL003R	See Page 11	\$124.00
B	PL003CCR	See Page 11	\$124.00
C	PL005CCR	See Page 15	\$117.00
D	PL006R	See Page 11	\$124.00
E	PL200R	See Page 15	\$159.00
F	PL215R	See Page 13	\$164.00
G	PL216R	See Page 13	\$166.00

Superior Performance

The R-Series platforms are water resistant, have no edge separation where germs can congregate, and can be cleaned and sanitized to maintain a bacteria-free environment.
